Why are you interested in being a Foundation Board Member?

Over the past year I have really come to appreciate Rhoades, their dedicated staff and the parents we have met. Rhoades will be a part of my extended family for the next 10 years, and I want to take an active involvement in making Rhoades be the best it can be. I was raised being taught that education is one of the most important things you can gift your children. I value education deeply and want to be involved in making the learning experience a positive fulfilling one for all of the children at Rhoades. I know the Rhoades Foundation has accomplished some amazing goals in providing a better educational experience and I want to continue that trend. I believe my creativity, analytical thinking, and experience in a wide variety of settings will allow me to bring a positive contribution to the Foundation.
